

Conditioned Air®

The Comfort People Since 1962®

Theo Etzel
Conditioned Air
President/Owner

Conditioned Air Corporation of Naples, Inc. provides the highest quality service, at competitive prices, to give residents of Southwest Florida their best value for air conditioning and pool heater systems. We are committed to earning people's trust with our honest business practices.

"At Conditioned Air, we don't just say the customer is number one, we make sure everything we do is focused 100% on total customer satisfaction," says Theo Etzel, President and Owner of Conditioned Air. "This attitude has given us a very large and very loyal customer base. Our top priority is to continue to earn that loyalty with every single service call we make."

Centrally located on 1.5 acres in Collier County, Conditioned Air maintains a full office staff of dispatchers, administrative personnel and operation managers. The Conditioned Air warehouse is well stocked with supplies, parts and equipment necessary to handle the smallest or most complex service calls. Our on-site fabrication

facility allows Conditioned Air to provide customized services, second to none. With these resources, when the Conditioned Air vehicle arrives at your home or business, you know our company stands for top quality service.

"This is not a company of just trucks and products. This is a company of people serving people," Theo Etzel continues. "Our people always have the best interests of our customers in mind. That means being totally honest and ethical with every customer."

Living and working with this business philosophy every day is what generates such loyalty and trust in Conditioned Air's many customers.

The Mission of Conditioned Air:

To provide products and services, in an honorable way; that exceed the expectations of each and every one of our clients within an industry whose reputation is tarnished with mistrust and deceit. Honesty, integrity, respect, and 100% purposeful effort will be afforded all our Stakeholders: our Customers, our Employees, our Vendors, and our Owners.

Unconditional Guarantee

If CONDITIONED AIR cannot make you completely satisfied with any residential replacement system or accessory you buy from us, we will take back your equipment and refund your money, in full, for up to one year after installation. Every residential replacement system or accessory carries this guarantee. Period.

There is no fine print. You can return any system or accessory, up to one full year from the date of installation. CONDITIONED AIR'S one year guarantee assures you, our customer, your complete satisfaction, or we will refund your money in full. Period.

EXCEEDING EXPECTATIONS

EVERY STEP OF THE WAY

The High Efficiency, Ultra-Quiet Heat Pump Series from **ComfortSwim™**

THE ABSOLUTE HIGHEST STANDARD OF MANUFACTURING QUALITY

The entire family of **ComfortSwim™** Heat Pumps is manufactured with the highest quality components, state of the art-testing and come with AHRI Performance Certification.

R-410A - CLEAN REFRIGERANT

Our latest generation, The High Energy Series includes the new, environmentally friendly refrigerant, R-410A. Components in the **ComfortSwim™** R-410A Units have been upgraded, fortified and tuned to perform with the chlorine-free, R-410A Refrigerant.

TURBO-TITANIUM STRENGTH

All **ComfortSwim™** Heat Pumps feature the Turbotec Titanium Heat Exchanger for the maximum efficiency and performance for heat exchange. While all titanium heat exchangers are impervious to corrosion and erosion, not all are designed equally. Our unique rifled design guarantees maximum transfer of heat to your pool water.

AHRI PERFORMANCE CERTIFICATION

AHRI Certification gives the consumer peace of mind and a true "apples to apples" comparison regarding performance and efficiency. Check our performance ratings and our warranty and you'll find we are the leaders in heat pump technology. Always purchase an AHRI Certified unit to guarantee that you are getting what you're promised.

OUR HEAT EXCHANGE DESIGN MAXIMIZES PERFORMANCE AND MINIMIZES WASTE AND WEIGHT!

The **ComfortSwim™** heat exchanger features a unique rifled design allowing for maximum surface contact between your pool water and the heat source. The tight rifling also allows for less actual titanium inside the exchanger. More efficient use of the titanium reduces weight, waste and materials cost.

The **ComfortSwim™** CS Series of Swimming Pool Heat Pumps comes with our exclusive, specially designed State Of The Art TXV (Thermal Expansion Valve) which has been optimized for R-410A Refrigerant to precisely regulate the flow of refrigerant through our patent pending coil to achieve maximum efficiency especially at lower temperatures, allowing lower cost of operation.

FEATURES & BENEFITS

FOR COMPLETE POOL PLEASURE

The High Efficiency, Ultra-Quiet Heat Pump Series from **ComfortSwim™**

PERFORMANCE & EFFICIENCY

The Maximum Heat for Minimal Cost

PATENTED REFRIGERANT METERING SYSTEM

- More efficiency and better performance, especially in colder weather.
- Works in conjunction with our Thermal Expansion Valve and our patent-pending coil design.

SUPER SIZED EVAPORATOR COIL

- More square-footage of coil! This is where efficiency begins.
- Higher performance in colder weather.

MOST EFFICIENT HEAT EXCHANGER DESIGN

- 100% Titanium and the unique, rifled design draw the absolute highest amount of heat into your pool.
- All 2" plumbing to maintain full water flow.

POWERFUL LOW SPEED FAN

- Ultra-quiet and efficient.
- Lower RPMs use less energy and make for quieter operation.

HIGH EFFICIENCY SCROLL COMPRESSOR

- Silent scroll technology uses minimal energy to achieve maximum output

INTELLIGENT CONTROL

Customize operation with the most comprehensive control board available

SOLAR HYBRID OPERATION CAPABILITY

- Our REVOLUTIONARY control board's dual sensor detects and controls operation of your pool solar system and allows your heat pump to operate when the solar isn't meeting your demands.

PERSONAL PREFERENCE FEATURES

- Habla-Español? Parlez-vous Français? Choose from English, German, Spanish, French and Portuguese for your heat pump.
- Display in Celcius or Farenheit.
- Digital lockout feature keep renters or children from adjusting controls.

EVEN HEAT OPTION

- Keeps your pool warm consistently 24 hours a day.

DUAL THERMOSTAT

- Set two separate temperatures for pool and spa.

BACK LIGHTED SELF-DIAGNOSTIC DISPLAY

- Self-diagnostic LCD displays information if a problem occurs.
- Displays information in real words, not confusing codes.

COMPATIBLE WITH ALL AUTOMATION SYSTEMS

- Whether you have an existing automation system, or are considering adding remote control, the **ComfortSwim™** is designed to work with ANY automation system.

SUPERIOR DESIGN & TESTING

Every component, every unit factory-tested

MASS FLOW METERING SYSTEM

- Charges the unit automatically for perfect operation and performance every time.
- Accurate volume to 1/100th of an ounce.

AUTOMATED HELIUM (He) TESTING

- 100 times more sensitive to leak detection than all of our competitors.
- Virtually eliminates any refrigerant loss and ensures your heater's performance.

DIAGNOSTIC DISPLAY BOARD

- Identifies potential problems, in real words, not code.

INTERLOCKED TESTING STATIONS

- Every unit must pass every quality test before it can move down the line.
- Linking every test ensures a perfect unit every time.

DURABLE ABS PLASTIC CABINET

- No rust, wipes clean.

ULTRA QUIET

Higher quality components and smarter design make for a whisper quiet unit

DESIGNED FOR PEACEFUL, QUIET OPERATION

- Ultra-quiet low speed fan (8 Pole Motor).
- Ultra-quiet scroll compressor.
- Sound dampening heat exchanger.
- As low as 56 Decibels at full operation.
